STATINTL

1. [REDACTED] of PSB informed me that the Fulbright Subcommittee Investigating Psychological Warfare hoped to convert itself into a permanent Subcommittee, along the lines of the *Joint* Congressional Committee on Atomic Energy. He also stated that the Subcommittee staff was pushing PSB on [REDACTED] and that Senator Fulbright plans to talk with the DCI concerning this.

STATINTL

2. I informed the DCI that Senator Fulbright was in town and that he was planning to see the Director with possibly one other member of the Subcommittee. After reviewing the Subcommittee's membership, I pointed out to the Director that it might be preferable for us first to call Fulbright and thoroughly discuss the [REDACTED] picture on an isolated basis rather than waiting for Fulbright to call the DCI. We thereupon called Senator Fulbright's office, but he had already left town until Thursday when the Director again plans to call him.
